Personal observation visit: The simplest, cheapest type of visit. You will normally be the only visitor(s) on site (although we do not guarantee this). You are welcome to take photographs and there will always be a knowledgeable members of staff available to answer as many questions as you want to ask. This kind of visit normally lasts about 1 hour and appeals to the sort of person who just wants to watch the wolves for a while in peace and quiet. You may be able to greet our wolves through the wire although we absolutely do *not* guarantee this. The wolves decide whether they are in a mood to greet or not. If you have a special interest - for example, if you are studying canine behaviour or wolf biology - then please let us know. Observation visits usually take place during the working part of the day and you may get to see various activities involving the wolves.
